

Comments from the Train-and-Place Unemployed Graduates on William Lee's Die Casting Engineering Industrial Skills Training Program July 2009 – November 2009

1. "It is a detailed technical study with informative industry visit training program. Very helpful for unemployed graduates who are looking for employment & to improve engineering knowledge."
Mohd Tamizi – Diploma in Civil Engineering, Universiti Teknologi Malaysia, Semarak.
2. "The training has equipped us with new & useful engineering skills. I've improved my industry competency from this training."
Hemanathan – Diploma in Automotive Engineering, Tractor Malaysia Academy.
3. "This kind of training is very useful to increase industrial knowledge and it is very rare in Malaysia. It has created interest for us to realize the significance of technical details learning."
Mohd Firdaus Bin Idris – Diploma in Mechanical Engrg, Universiti Teknologi Mara, Pinang.
4. "The training makes me realize the importance of studying material, machine, mould & the method in actual manufacturing practice."
Mahasein Bin Shaik Omar – Diploma in Occupational Safety, Open Universiti Malaysia, Bangi.
5. "The program has trained us with a necessary skill in manufacturing industry although I'm from a different discipline background. Very useful!"
Rosfaizul Bin Ismail – Degree in Chemical Engineering, University Technology Petronas, Perak.
6. "Such training has enhanced my employability and I hope it should organize regularly in order to develop local skilled workers rather than too much depending on foreign workers which can cause massive outflow of our currency from the wages paid to them."
Nor Firdaus Bin Mustapha – Diploma in Mechanical Engineering, Politeknik Kota Bahru.
7. "The program has taught us a deeper understanding in manufacturing engineering. It is very useful for graduates & engineers who are lacking in manufacturing knowledge & skills. It has prepared us industry-ready for employment in manufacturing field."
Mohd Ariff Bin Zainal – Degree in Mechanical Engineering, Nottingham University, Semenyih.
8. "This training will definitely assist us to apply for a rewarding technical post. It has given us a useful theoretical & practical exposure in manufacturing engineering."
Muhd Afif Bin Mohd Saupi – Diploma in Mechatronics, Politeknik Kota Bahru.
9. "The program will develop knowledgeable workforce with a good fundamental engineering knowledge which can be applied in local manufacturing industry."
Mohd Azfar Bin Fadzil – Diploma in Mechatronics, Politeknik Sultan Mizan Zainal Abidin.
10. "This kind of training will be able to produce technically inclined workforce with quality engineering know-how."
Mohd Afif Bin Fadzil – Diploma in Mechatronics, Politeknik Merlimau Melaka.
11. "Very specific training program, meeting the industry needs and very useful for the industry."
Mahani Binti Mukhtar – Degree in Mechanical Engineering, Intl. Islamic University Malaysia.

12. "A suitable training program for those who want to learn detailed study of manufacturing process and good exposure on how to produce quality parts."
Mohd Salahuddin – Diploma in Mechatronics Engineering, Politeknik Ungku Omar, Ipoh.
13. "Effective training and applicable for technical employment. Thanks to Mr. William for given me a chance to acquire a new knowledge and to improve my skills and experience in engineering."
Mohd Khalid Bin Ahmad – Diploma in Manufacturing Engineering, Institut Kemahiran Mara.
14. "A detailed explanation in engineering theory, easy to apply in practical floor, a clear overview of technical duty and ability to improve part quality & productivity. It is indeed a very good training for future technical workforce."
Aminuddin – Degree in Mechanical Engineering, University Teknologi Mara, Shah Alam.
15. "Very good training & related to the industry. Please make this program available in University."
Mohd Safadilah Bin Mashor – Degree in Manufacturing, Universiti Teknikal Melaka.
16. "The program has added more value to my existing knowledge through the systematic training & industry exposure. Overall it is a satisfied training course."
Rizaidi Bin Zakaria – Degree in Materials Engineering, Universiti Sains Malaysia.
17. "Such training is very useful for workers and train them to carry technical tasks in a most effective manner. A strong fundamental is inevitable for engineering job."
Zamri Bin Suradi – Degree in Physic, Universiti Putra Malaysia.
18. "Interesting, good exposure to manufacturing technology. Through this program we've acquired detailed technical know-how & valuable experience in the real job atmosphere."
Al Fitri Bin Ariffin – Diploma in Mechanical Engineering, Politeknik Port Dickson.
19. "Excellent training program. I like the video show during the course presentation."
Thong Fook Seong – Diploma in Electronic Engineering, Megatech Institute.
20. "Effective & successful training program. Very helpful for the fresh graduates who cannot find a suitable job."
Hati Kumar – Diploma in Civil Engineering, Politeknik Sultan Azlan Shah, Behrang.
21. "The course is quiet unique & rare in Malaysia. Knowledge gained is applicable and immediate job availability in the market upon completion the training. I'm glad to have finished this training and gain the necessary technical knowledge which will be beneficial for my job application."
Letchumanan – Diploma in Accounting, Workers Institute of Technology, Klang.
22. "Excellent training! The program has provided a good course syllabus to meet industry needs as well as job exposure in the real industry world. It has given us a systematic training with good coverage of theory and practical skills."
Hafizuddin Bin Daud – Diploma in Mechanical Engineering, Politeknik Port Dickson.
23. "The program has provided me helpful hint and opportunity to acquire a meaningful industrial knowledge. The technical skills gained from this training are useful to the industry & most importantly it is applicable & practical to the real engineering world."
Mohd Fariza – Degree in Chemical Engineering, University Teknologi Mara, Shah Alam.
24. "The program is effective and the lesson is easy to understand. After this training, it is easier for me to understand the real life of engineering field. The training notes are clear & easy to study."
Chang Hui Chian – Degree in Electrical Engineering, Multimedia University, Cyberjaya.
